Allowable Subject Matter

1. Claims 2-11, 13-14, 16-24 and 26-45 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to system and method for communicating a message including a confidential datum with encryption and a non-confidential datum without encryption. The prior arts of record do not disclose receiving input information from one Web page displayed to the user at a first computing device, the input information comprising at least first and second datum corresponding respectively to at least first and second user input fields, wherein the first datum comprises at least one of a credit card number and a social security number; at the first computing device, a program determining which of the at least first and second user input fields contains confidential information, wherein the first datum is confidential to the user and the second datum is not confidential to the user; the first computing device communicating the first datum to a second computing device over an untrusted network with encryption of the first datum; and the first computing device communicating the second datum over the untrusted network to the second computing device without encryption of the second datum (claims 40, 44-45) and further the communication of the first and second datum occur at least substantially simultaneously (claim 36).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should
